

# Japa Sans Oriya - Font Features

Japa Sans Oriya is an OpenType-enabled font family that supports the Oriya/Odia script. It includes a number of optional features that may be useful or required for particular uses or languages. This document lists all the available features.

These OpenType features are primarily specified using four-letter tags (e.g. 'cv10'). For more information on how to access OpenType features in specific environments and applications, see [Using Font Features](#).

This page uses web fonts (WOFF2) to demonstrate font features and should display correctly in all modern browsers. For detailed information see [Using SIL Fonts on Web Pages](#).

*If this document is not displaying correctly a PDF version is also provided in the documentation/pdf folder of the release package.*

## Complete feature list

### Character variants

#### Va for Kui

Affects: U+0B35

Feature	Sample	Feature setting
Default	ବ ବ୍ ବ୍	cv10=0
Kui	ବ ବ୍ ବ୍	cv10=1

### Stylistic sets

#### KaTaRa Alternate

Affects: U+0B15 U+0B4D U+0B24 U+0B4D U+0B30

Feature	Sample	Feature setting
